Course Description

Honors English is a course built on inquiry, open-ended questions with no specific “right answer”, engagement in academic discussion, and effective articulation of their ideas and understanding. The course explores the thematic concept of culture; it takes the grade 9 emphasis on self-awareness and expands it by studying the extent to which one’s culture influences one’s worldview. Using texts that represent a variety of cultures, genres, and experiences, English II dives deeply into how language use and structure conveys authors’ points of view, perspective, and bias. Throughout, students must integrate evidence from texts to support complex theses and arguments in written and oral responses, including research investigations, collaborative presentations using digital media, and writing in a variety of modes including argumentative, explanatory, and narrative.

Unit One: *Cultural Conversations*

OVERVIEW

The twenty-first-century classroom and workplace are settings in which people from different cultures mix and work together. Unit 1 guides students' explorations of culture and its components—nationality, family, ethnicity, gender, race, and subgroups—examining how these components shape their perceptions of themselves and the world around them. As students seek to understand their own culture and the cultures of others, they are able to evaluate different perspectives and adjust their own thinking by learning from others. Students will also explore the concept of cultural identity and diverse cultural perspectives by examining a variety of texts that range from personal reflections to short stories and art. By studying a wide range of texts representing a variety of cultural perspectives, students make connections to their own lives to better understand the interrelationships among multiple cultures.

High School Curriculum Map for **Honors English II****Unit Five—*Cultures in Conflict* (SpringBoard Unit 3)****OVERVIEW**

Unit 3 continues the exploration of culture by examining what happens to a community when outsiders try to influence it. As students read and analyze Chinua Achebe’s novel *Things Fall Apart*, they will learn about the African Ibo culture, make connections to their own culture, and consider the novel’s characters and their responses to the cultural change.

Although the unit is primarily a novel study, students will have the opportunity to conduct research and present their findings in a group presentation. They will also have opportunities to refine their academic writing skills. Two poems and an interview with Chinua Achebe complement the novel. By the end of this unit, students should become more proficient in close reading, formal writing, literary analysis, research, and communication.
